B.A. IInd Year

Paper-I: Modern Western Philosophy

Course Outcomes (COs)

CO-1: To provide students with a comprehensive understanding of the various theories of western philosophy beginning with Descartes, and also the distinction between rationalism and empiricism.

CO-2: To help students understand and analyse the various texts of western philosophical traditions.

CO-3: To enable students to witness how philosophers who were either predecessors or contemporaries evaluated the theories of others, thus will advise them in distinguishing good arguments from bad arguments

CO-4: To help students to have a better understanding of how a man thinks and what goes on into the making of human thought.

CO-5: It also helps to enlighten students about various Philosophical theories pertaining to the metaphysical realm like that of Cosmogony, Self and God.

Paper-II: Logic

Course Outcomes (COs)

CO-1: This course is an important part of Philosophy, which is known as 'Mother' of all Sciences. Logic is a science of valid and correct reasoning.

CO-2: This paper will make students understand the basic concepts of Logic such as sentence, proposition, truth, validity, categorical syllogism, Venn Diagram, informal fallacies etc.

CO-3: This paper will help the students to develop an understanding of the basic concepts of Logic and language as well as familiarity with the precise models of deductive reasoning.

CO-4: It includes both theoretical and applied aspects.

CO-5: Uses of languages manage to differentiate the various applications of language effectively.

CO-6: Informal fallacies enable the students to understand the defects in the conversations which we use in our day to day life.

CO-7: Nowadays, this is very important to preserve one's intellectual sanctity in an increasingly media saturated world.
