MA Economics

Programme Outcome (PO)

PO1: **Knowledge Skill:** The Master of Arts program in Economics has been designed to develop in-depth knowledge of students in frontier areas of economic theory and methods so that they can use the knowledge to study real-world economic problems.

PO2: **Critical Thinking:** The program offers specialized optional courses (e.g., Population Studies, Demography, Environmental Economics, Public Economics, Advanced Econometrics, and Time Series Analysis), which allow the student to select and pursue their studies in their area of interest.

PO3: **Research Competence:** The course strongly focuses on theoretical and quantitative skills and trains students to collect and analyze the data using their software skills.

PO4: Individual and team work: The students are required to submit a report and present their findings of the field study.

PO5: **Project management and finance:** Besides, to hone the student's writing and analytical skills they are required to submit a term paper on current economic problems.

PO6: Effective Citizenship: The students will be able to evaluate the fiscal and monetary policies with the comparisons of the economic practices existing at the national and international levels.

PO7: **Ethics:** The students will be capable of recognizing and analyzing demographic trends and issues, Education, health and malnutrition, and policies towards poverty, inequality, and unemployment.

PO8: Entrepreneurial Skill: The students will increase their employability through the learning of soft skills, entrepreneurial skills, and problem-solving skills.

PO9: **Environment and sustainability:** The students will be able to understand the issues related to environmental concerns and sustainable development.

Program Specified Outcome (PSO):

Knowledge outcomes:

PSO1: Develop in-depth knowledge of students in frontier areas of economic theory, principle, methods, and applications, so that they can use the knowledge to study real-world economic problems.

PSO2: Develop an understanding of the interrelationships among the various microeconomic and macroeconomic variables and the way they impact the working of the economy as a whole, thereby determining the course of the economy.

PSO3: Analyse the major trends in economic indicators and policy debates in India in the postindependence period, with particular emphasis on paradigm shifts and turning points.

Skill Outcomes:

PSO4: Develop a sound understanding of the core microeconomic and macroeconomic concepts that economists use to understand the process of decision-making by an economic agent(s) and to identify the strategic behavior of economic agents.

PSO5: Learn a high level of mathematical, statistical, and econometrics skills that further develop problem-solving and analytical skills.

PSO6: Describe the role of money, financial markets, financial institutions, and monetary policy in the economy, thus providing a solid foundation for further study or employment in the financial services industry.

Environment Sustainability:

PSO7: Interpret the problems of the natural environment through the lens of economic theories and applications and make students more aware of the problems faced by the policymakers in terms of environment and at the same time ensure that economic growth and development do not get hampered.

Employability outcomes:

PSO8: By covering many major topics in the course, it helps in the preparation for competitive exams just as Indian Economics Services, Banking, etc.
